Project Name	Smart Lender (Loan Approval Prediction)
Maximum Marks	1 Mark

Communication Plan Template

Communication planning and issue resolution records.

Communication Channel Log

Channel	Frequency	Participants	Purpose
Daily Standup (WhatsApp)	Daily	All Members	Report tasks, align code segments, resolve blocker tasks.
Weekly Sync (Google Meet)	Weekly	All Members	Review notebook training progress and Flask route integration.
VS Code Live Share	As Needed	Developers	Pair program during Flask configuration and directory structure setup.

Challenges & Resolution Tracker

Challenge Identified	Impact on Project	Resolution / Action Taken
Incompatible pickle formats across python environments.	Model unpickling error during startup.	Replaced pickle with joblib serialization and serialized both scaler and model with identical scikit-learn environments.
Relative paths failed when run from workspace root.	FileNotFoundError for models/model.pkl.	Modified app.py to dynamically resolve BASE_DIR using os.path.dirname(os.path.abspath(__file__)).
